Dr. Charles Yanofsky
Department of Microbiology
Western Reserve University
Cleveland 6, Ohio

Dear Charley:

Glad you will be with us in Detroit. Your comments on the discussion periods are well taken, and I'm sure they can be worked in. Probably the only satisfactory way to plan for effective use of the much too short time for discussions is to get together before the session. How would 10 p.m. October 31 at the Statler suit you?

As far as Norm and Josh's talks are concerned, Norm is planning a general review and summary, with some new material on tyrosinase, and Josh has no definite plans as yet, except to serve as a time-buffer, perhaps mopping up loose ends and summarizing if time permits.

Best regards,

Ed

E. L. Tatum

Dear Dr. Tatum,

ELT:gz

*Oct 3,
10 PM at the Statler suite me fine. See you
then.*

Sincerely,

CX
